

Proposing a Project for GIFT's Global Young Leaders Programme

The Global Institute For Tomorrow is developing the Global Young Leaders Programme (YLP) to play a pivotal role in bringing together the contrasting worlds of business and communities for each to realise sustainable development possibilities.

NGOs and their indispensable work are essential in this continuing effort to build trust and bridge the gap between these two worlds.

Your participation in the YLP through a project that you are involved in or are aware of can bring real benefits to the community you are working with.

There should be a business-led, long-term sustainable solution to the needs of the community.

Please tell us about it here, in 100 words or fewer, so that we can assess that it fits the YLP approach.

Email this form to:

Ben Li, Programme Manager
bli@global-inst.org
or fax to: +852 3585 3910
